- Medicare Australia has its own requirements and procedures for accounts that you should be familiar with if providing services under the Medicare Benefits Schedule (MBS). These are set out on the APS website.
- Some health funds are requesting inclusion of diagnostic information on accounts. You should only include this information where there has been an explicit arrangement between the health fund and client. If this is part of their contractual arrangement, you may be obliged to include such details. Otherwise, it may contravene confidentiality requirements. If these items parallel Medicare Australia rebatable items but the client chooses to claim against their health fund, inclusion of the words "not being claimed under Medicare" may assist client claims.

For clients requesting reports, it is the responsibility of the psychologist to clarify the procedures and costs involved prior to report preparation.
